

Deer Resistant Plant List

Available on a seasonal basis, some plants may have limited availability.

This is a list of recommended plants that are known to be resistant to browsing deer, NOT DEER PROOF plants.

Factors such as drought, the practice of feeding deer in your neighborhood, and a reduced fear of man increase the likelihood of landscape damage.

- Abelia
- Acuba
- Afghan Pine
- Agarita
- Agastaha
- Agave
- Ajuga
- Allamanda
- Allium
- Allysium
- Almond
- American Beautyberry
- American Beauty Bush
